Application and Admission Process

To initiate the application process, prospective students must apply through the VMCAS. The VMCAS application is available online at www.aavmc.org. The application cycle opens in June of each year.

The official VMCAS application deadline is October 2nd of each year. To finalize the application process the Midwestern University Office of Admissions will email a supplemental application form to all students who have met the admission requirements. This form must be completed as directed and returned to the Office of Admissions no later than March 1st.

Beginning October 3rd, students who have not yet applied through VMCAS can still apply by submitting the MWU online application at www.midwestern.edu/azvetmed.

Healthcare Education is All We Do

Midwestern University is a private degree-granting institution specializing in the health sciences with 10 colleges and two campuses located in Glendale, Arizona and Downers Grove, Illinois.

MWU’s Glendale Campus

ARIZONA COLLEGE OF OPTOMETRY
COLLEGE OF VETERINARY MEDICINE
Study with the Professionals Who Make Healthcare Their Business

Midwestern University’s College of Veterinary Medicine (MWU-CVM) prepares veterinarians to provide exemplary animal care and impact the world by improving animal and human health through research, scholarly activity, and service to the public.

As an MWU Veterinary Student, You Will:

- Attend a full-time, four-year program that awards graduates the Doctor of Veterinary Medicine (D.V.M.) degree
- Spend pre-clinical training years in classroom lectures, laboratories, and simulation lab exercises
- Choose your veterinary path with flexible externships and electives to meet your career goals during clinical rotations
- Rotate through a variety of diverse veterinary care experiences, including hands-on animal contact and clinical skills training, on campus and at external sites
- Take classes in new state-of-the-art on-campus facilities, including a veterinary teaching clinic and a large animal teaching facility, all designed specifically for CVM students
- Enjoy the quality of life and attractive cost of living in Arizona, with affordable on-campus housing and financial aid programs designed with students’ needs in mind

Dynamic Professional Career Opportunities

Many exciting opportunities exist in veterinary medicine. You can work in private general practice or a specialty field such as:

- Anesthesiology
- Dentistry
- Cardiology
- Food animal production medicine
- Small animal surgery
- Wildlife medicine

Other opportunities include working in research at a university or company, or for a government agency in the areas of biosecurity, environmental quality, public health, or disease outbreak investigation.

For more information: www.midwestern.edu/CVM.

State-of-the-Art Facilities

Midwestern University has committed over $180 million toward the new College’s physical facilities, including:

- A 78,000 square-foot academic building
- A 70,000 square-foot large animal teaching facility
- A 109,000 square-foot veterinary teaching clinic open to the public
